

Creative Studies

Interior and Exhibition Design

Course Features

Course Aims

This course aims to develop students' creativity and to equip them with the basic knowledge and skills required for interior design and exhibition design, enabling them to apply their learning to the creation of ideas and development of spatial design. Emphasis is also placed on enriching students' understanding of culture, aesthetics, technology, design and society, facilitating their further development in the creative industry. Students may choose, according to their personal interest, "Interior Design" or "Exhibition Design" as their electives.

Professional Recognition

Students will obtain a Qualifications Framework (QF) Level 3 certificate in addition to HKDSE qualification upon successful completion of the course.

Diversified Learning and Teaching Activities

Activities such as case studies, projects, artistic work appreciation, professional talks and sharing, guided visit to various important exhibition and designer studio of significant values will be arranged to recognise the special features of interior and exhibition design in Hong Kong.

Simulated Learning Environment

Equipped with industry-standard facilities and equipment, e.g. Drawing Studio, Design Studio, Three-Dimensional Design Workshop, Photographic Studio, etc. for students to practise related knowledge and skills.

Interior Design Stream

- 3A. Interior Design and Development (48 hours)
- 4A. Interior Design Project (72 hours)

Exhibition Design Stream

- 3B. Exhibition Design and Development (48 hours)
- 4B. Exhibition Design Project (72 hours)

Art is borderless, while design is surrounding us in everyday life. In particular, interior design connects people with their living environment. This ApL course introduces interior and exhibition design fundamentals, and nurtures students' sense in drawing, furniture decoration, spatial architecture, colour application and materials selection. Through communication, coordination and realisation during the design process, students will be able to explore the relationship between living and design from multiple perspectives. Students will also be better equipped in the field of design and get new inspirations on lifestyle.
